

Table of Contents

ABBREVIATIONS AND ACRONYMS

EXECUTIVE SUMMARY	ES-1
Introduction	ES-1
Background	ES-3
Overview of Proposed Action.....	ES-4
Alternatives to the Project.....	ES-5
Approach to Environmental Review.....	ES-6
Affected Environment	ES-7
Environmental Consequences.....	ES-9
1: INTRODUCTION.....	1-1
1.1 Project Overview	1-1
1.2 Purpose and Need.....	1-1
1.3 Scoping and Agency Roles.....	1-5
1.4 Project Background.....	1-7
1.5 Organization of this EA.....	1-8
2: ALTERNATIVES, INCLUDING THE PROPOSED ACTION.....	2-1
2.1 Approach to Alternatives	2-1
2.2 Alternative A–Proposed Action.....	2-1
2.2.1 Location.....	2-1
2.2.2 Overview of the Proposed Action.....	2-3
2.2.3 Construction.....	2-7
2.2.4 Operation	2-13
2.2.5 Instrumentation and Control	2-16
2.2.6 Decommissioning.....	2-17
2.3 Project Evolution.....	2-17

TABLE OF CONTENTS

2.3.1 Injection Now/No Discharge to Pit River	2-17
2.3.2 Discharge of Effluent to a Created Wetlands.....	2-17
2.3.3 Discharge Pipeline Route Through Wetlands	2-19
2.3.4 Discharge Pipeline Route Along County Road.....	2-19
2.4 No Action Alternative	2-20
2.5 Impacts and Mitigation Measures	2-20
3: AFFECTED ENVIRONMENT	3-1
3.0 Introduction	3-1
3.1 Meteorology/Air Quality	3.1-1
3.2 Geology/Soils and Mineral Resources	3.2-1
3.3 Hydrology and Geothermal Resources	3.3-1
3.4 Biological Resources	3.4-1
3.5 Cultural Resources	3.5-1
3.6 Land Use, Agriculture, and Recreation.....	3.6-1
3.7 Noise.....	3.7-1
3.8 Infrastructure and Service Systems	3.8-1
3.9 Aesthetics	3.9-1
3.10 Socioeconomics.....	3.10-1
3.11 Transportation and Traffic	3.11-1
3.12 Human Health & Safety.....	3.12-1
4: ENVIRONMENTAL CONSEQUENCES AND MITIGATION MEASURES	4-1
4.0 Introduction	4-1
4.1 Meteorology/Air Quality	4.1-1
4.2 Geology/Soils and Mineral Resources	4.2-1
4.3 Hydrology and Geothermal Resources	4.3-1
4.4 Biological Resources	4.4-1
4.5 Cultural Resources	4.5-1
4.6 Land Use, Agriculture, and Recreation.....	4.6-1
4.7 Noise.....	4.7-1

4.8 Infrastructure and Service Systems	4.8-1
4.9 Aesthetics	4.9-1
4.10 Socioeconomics.....	4.10-1
4.11 Transportation and Traffic	4.11-1
4.12 Human Health & Safety.....	4.12-1
4.13 Unavoidable Adverse Impacts.....	4.13-1
4.14 Irreversible or Irretrievable Commitment of Resources.....	4.14-1
5: CUMULATIVE IMPACTS.....	5-1
6: LIST OF PREPARERS AND AGENCIES AND PERSONS CONTACTED	6-1
7: REFERENCES	7-1
8: RESPONSE TO COMMENTS	8-1

LIST OF APPENDICES

APPENDIX A: SCOPING DOCUMENTS

APPENDIX B: NOTICE OF AVAILABILITY, TRANSMITTAL LETTERS, AND MAILING LISTS FOR DRAFT EA

APPENDIX C: WASTE DISCHARGE PERMIT

APPENDIX D: WELL TEST REPORT

APPENDIX E: WETLAND DELINEATION REPORT

APPENDIX F: SPECIAL STATUS BOTANICAL SURVEY

APPENDIX G: SPECIAL STATUS WILDLIFE SPECIES

APPENDIX H: FISH AND WILDLIFE SERVICE SPECIES LIST

APPENDIX I: MERCURY ABATEMENT REPORT AND WATER LEVEL MERCURY TESTS

APPENDIX J: MIXING ZONE STUDY

APPENDIX K: MITIGATION ACTION PLAN

LIST OF TABLES

Table ES-1: Summary Of Monitoring and Mitigation Considered As Project Conditions	ES-9
Table 1.3-1: Required Permits And Approvals	1-6
Table 2.2-1: Description Of Piping For Distribution And Discharge Lines	2-9

Table 2.2-2: Tentative Project Schedule.....	2-12
Table 2.5-1: Summary Of Measures Considered As Project Conditions	2-20
Table 3.1-1: Modoc County 2001 Emissions Estimate By Pollutant Type in Tons/Day	3.1-1
Table 3.1-2: Canby Meteorological Data From 1971 To 2000	3.1-3
Table 3.1-3: Federal And California Ambient Air Quality Standards	3.1-5
Table 3.2-1: Soil Types For The Project Area	3.2-4
Table 3.3-1: Pit River Drainage Basin, Surface Water, Runoff And Water Supply.....	3.3-1
Table 3.3-2: Water Quality Of The Canby Region	3.3-7
Table 3.4-1: Special-Status Plant Species Known To Occur Or With The Potential To Occur In The Project Area	3.4-3
Table 3.4-2: Special Status Wildlife Species With The Potential To Occur Within The Region Of The Project Area And Use Of The Proposed Project Study Area	3.4-5
Table 3.5-1: DOE Tribal Consultations	3.5-3
Table 3.7-1: Typical Residential/Commercial Noise Sources And Levels	3.7-1
Table 3.7-2: Community Noise Exposure.....	3.7-3
Table 3.10-1: Socioeconomic Characteristics Of Modoc County.....	3.10-1
Table 3.10-2: Modoc County Non-Agricultural Wage And Salary Employment In 2000.....	3.10-2
Table 3.11-1: Potentially Relevant Existing Traffic Volume Levels On Highways In The Vicinity Of The Project Area, Including State Routes 139 And 299.....	3.11-1
Table 3.11-2: Existing Traffic On County Roads 161, 83, 82, And 54	3.11-4
Table 3.12-1: 1998 Activity For Alturas Rural Fire Department.....	3.12-1
Table 4.3-1: NPDES Permit Receiving Water Limitations	4.3-4
Table 4.4-1: Summary Of Potential Impacts To Special Status Plants At The Project Sites	4.4-5
Table 4.4-2: Comparison Of Current And Projected Concentrations Of Key Contaminants Of Concern In The Pit River Against USEPA National Recommended Ambient Water Quality Criteria For The Protection Of Aquatic Life In Freshwater	4.4-7
Table 4.4-3: Summary Of Potential Impacts To Special Status Animals Occurring At The Project Sites	4.4-11
Table 4.4-4: Comparison Of Current And Projected Methyl Mercury Concentrations And Dosing Levels Against Limits And Levels Deemed Protective For Birds	4.4-12
Table 4.6-1: Zoning Designations.....	4.6-2
Table 4.6-2: General Plan Designations.....	4.6-2

Table 4.7-1: Estimated Peak Pipeline Construction Noise Emissions.....	4.7-2
Table 4.11-1: AADT Traffic For State And County Roads And Project Traffic	4.11-3
LIST OF FIGURES	
Figure ES-1: Proposed Project Area.....	ES-2
Figure 1.1-1: Regional Location Map.....	1-2
Figure 1.1-2: Proposed Project Area	1-3
Figure 2.2-1: Proposed Project Components	2-2
Figure 2.2-2: District Heating System Schematic	2-5
Figure 2.2-3: Existing Geothermal Well - ISO-1	2-7
Figure 2.2-4: Plan View of District Heating System.....	2-10
Figure 2.2-5: Proposed Discharge Pipeline Route.....	2-11
Figure 2.2-6: Corridors for the Pipeline (dry grazing land)	2-18
Figure 2.2-7a: Corridors for the Pipeline (Levee Road). Looking southwest at the proposed pipeline route.....	2-18
Figure 2.2-7b: Corridors for the pipeline (Levee Road). Composite picture of proposed pipeline re-route to discharge area (looking South)	2-19
Figure 3.1-1: Northeast Plateau Air Basin Location and APCD Jurisdiction	3.1-2
Figure 3.2-1: Fault Zones of the Alturas Region.....	3.2-2
Figure 3.3-1: Pit River Flow Data January-June 2001	3.3-3
Figure 3.3-2: Pit River Flow Data July-December 2001	3.3-4
Figure 3.3-3: Modoc County Drainage Basins	3.3-5
